Cocoon Collection

At Malone Fabrics, we realise the importance of fabrics that contribute to a sustainable and circular economy. Not only do we talk about it, but we also act on it. By using ecologically sourced materials and products with a greener production process, we are taking the eco-friendly road.

Harmolan PP is an upcycled yarn from waste from the oil industry and fully produced in-house, without the use of water and with minimum use of energy.

Quality Name:	Cocoon
Eco - Score:	100 %
Composition:	100% Harmolan PP

Cocoon Collection Experience the unmatched softness of our Cocoon. This new member of our Sustainable family. It is a true all-in-one: fabric. Incredibly comfortable, durable, easy to clean and sustainable. Cocoon is available in 25 lifestyle colours. Due to the local and vertically integrated production processes, from yarn to fabric to finish, Cocoon is as low carbon footprint as it gets. The production of the **Cocoon** range does not contain any PFC chemicals, nor does it use water to grow the fibres or to dye the fabrics. The soft touch fabrics are strong and durable thanks to the latest technologies.

Martindale Abrasion 50,000+ rubs

Composition 100% Harmolan PP

Weight 430 gm/m²

Width 140cm

Roll length 40m

Cleaning Instructions

To minimise the effects of creasing, we recommend you turn cushions regularly and use a good quality foam interior.

Vacuum regularly to remove surface dust and fluff etc.

A foam cleaner may be used for stains and applied with a large pored sponge or special applicator following the manufacturers instructions. Do not use a coarse or stiff bristle brush and avoid saturating the fabric with cleaning fluid or water as this could cause discolouration.
