Ciro Collection

At Malone Fabrics, we realise the importance of fabrics that contribute to a sustainable and circular economy. Not only do we talk about it, but we also act on it. By using ecologically sourced materials and products with a greener production process, we are taking the eco-friendly road.

Harmolan PP is an upcycled yarn from waste from the oil industry and fully produced in-house, without the use of water and with minimum use of energy.

Ciro Collection. Ciro's organic and sculptural shapes may seem random but if you look closer, you'll notice the patterns fit together like a puzzle. This bouclé fabric is our first Vivalife jacquard which means it is made of 100% Harmolan PP, making the fabric very durable and easily recyclable. It is also extremely soft and comfortable.
It co-ordinates with our Cocoon collection.

Cleaning Instructions

To minimise the effects of creasing, we recommend you turn cushions regularly and use a good quality foam interior.
Vacuum regularly to remove surface dust and fluff etc.
A foam cleaner may be used for stains and applied with a large pored sponge or special applicator following the manufacturers instructions.
Do not use a coarse or stiff bristle brush and avoid saturating the fabric with cleaning fluid or water as this could cause discolouration.
